

Ronny Cox is a well known actor and musician (www.ronnycox.com) who gave a recent performance at The Sacramento Mountains Historical Museum and Pioneer Village and was a guest at The Lodge Resort during his visit. He is a native son of Cloudcroft and discussed the events of his birth with the curator of the museum who relayed them to The Lodge. Mr. Cox is allowing us to post the story on our website – in his own words:

“Ha Ha... the details of my birth are pretty sketchy. My dad worked on a farm in Weed and they rushed my mom into Cloudcroft for my delivery. Why they took her to the Lodge is beyond me. (Did Cloudcroft have a hospital in 1938?) I was delivered by an Army Corpsman ... he had never delivered a baby before. They named me after his commanding officer... thus the “Daniel” in Daniel Ronald Cox... there was never any thought of anyone actually calling me Daniel... I’ve been Ronny all my life.

I never actually got to live in Cloudcroft... although it is the name of my corporation and a corruption of it is my email address.

New Mexico boy... through and through.”

All the Best,

Ronny
